QUEEN VICTORIA.

NEAR DEATH

Queen Victoria's Critical Illness Known to Her Distressed Subjects Throughout Britain.

THE FACT NOW ADMITTED

Family at the Bedside and Relatives Craving Near Rapidly, Say Latest Reports.

BULLETIN AT OSBORNE PLACE TO-DAY

London, Jan. 19.—It can no longer be denied, as was stated yesterday, that Queen Victoria is ill. Her condition, lately quite serious, has become precarious. All the family has been summoned to her bedside. Emperor William is now hurrying to join those in attendance upon the very ill ruler. A noon bulletin, posted at the Osborne Place, said the queen was practically prostrated physically and her condition was causing great anxiety. The excitement here and throughout England is intense, for the queen's age and her evident critical illness leaves but one conclusion, and that is that Great Britain's beloved queen is now nearing death and will soon have passed from life.

The Dearing Harvesting company against Ferguson-Palmer company case is still on trial in the circuit court and will last several days. Mr. M. V. Cherry was today excused from the jury and C. M. Ross substituted.

RAILROAD NEWS.

President M. H. Smith, Traffic Manager Graham and General Freight Agent Compton, of the L. and N., have been in Cincinnati attending the meeting of the Southeastern Mississippi Valley Freight Association, to fix freight rates for the south. Vice President Harahan, of the Illinois Central, Traffic Manager Culp, of the Southern railway, and George C. Smith, of the Air Line, were also in attendance.

The Illinois Central has cut the time between Chicago and New Orleans forty-five minutes and is now making the fastest time on record between these points.

Conductor Fred Lee, of the Memphis division of the Illinois Central, was badly hurt at Clinton, Ky., yesterday. He was on top of the caboose, when his train broke in two, and the shock when the sections came together threw him off. He was bruised and cut and internally injured, but will doubtless recover. He was taken to his home in Martin, Tenn.

A car load of the finest cattle seen here in some time went through on the Illinois Central from Obion, Tenn., to Louisville today. They averaged 1,200 pounds each.

The improved train service between Chicago and Florida over the L. and N., Illinois Central and Southern railways is attracting the cream of tourist traffic southward instead of to California. All of the trains are well patronized.

Nervousness.

A wearing out of the nerves; a breaking down of the nerve strength; an unrest; a weakness or exhaustion of the forces or energy that belong to the nervous system. The weak, the careworn, the melancholy, those with no appetite for food, or who have frequent headaches or nervous chills; the low-spirited and the depressed are on the verge of nervous prostration. Men and women who are easily excited, impatient, fidgety and unable to rest or sleep at night, should replenish the stores of nervous energy with the greatest of restoratives, DR. MILES' NERVINE.

"I had suffered for two years from nervous cramps in my legs and arms, nervous chills, depression of spirits, and general debility. I was so nervous and fidgety that I would be scared at a shadow, and so restless that I could not sleep day or night. Finally my doctor told me I could try Dr. Miles' Nervine, and if that did not help me I would probably lose my mind. I commenced with it at once and after I had taken five bottles I was cured." Mrs. MARTHA J. SHEPHERD, Omer, O. T.

Dr. Miles' Nervine

Renews the wasted nerve-force and repairs the worn-out brain-cells as nothing else can, and is the best of all restoratives for nervous prostration. Sold by druggists on a guarantee. DR. MILES MEDICAL CO., Elkhart, Ind.

SATURDAY, JAN. 19, 1901.

The politician has for the time taken a back seat. It is the office seeker who now has the floor or is reaching for the hand of the man with the ballot in prospect.

As evidence that salt is a good preserver look at Lot's wife. She promises to live on to the end of time as an example to the woman who looked back, though the salting down she received never broke woman of this particular habit.

The representatives in congress with constituents within touch of the Mississippi valley will serve their people by persistent efforts to secure a deeper water way for them. This needed work will not only enlarge the water traffic but at the same time will lessen the danger from overflows. The dual blessings are too easily attained to be overlooked or otherwise neglected.

The Nicaraguan bill is to be held up until the ship subsidy bill is passed. So have decided the majority, who feel the subsidy bill is being sacrificed to the canal bill. The decision will not set well in some parts of the nation, but the two bills have antagonized each other and the stronger must survive or both go down together. There are decided tricks in politics as well as in trade.

The new year in a business way has hardly yet begun to be felt, but that it will be felt needs hardly be asserted. The country's future was never so bright as now nor the promises so sure to come. Matters may go slow hence to spring, but the harbinger of this great life giving period of the year will not awake from their drowsiness too soon to escape being startled by the bustle and din certain there to be visible and heard everywhere. The first year of the Twentieth century will mean much to this great nation and to the world.

That part of the Democratic press which a few weeks since, as for several years before, was roundly abusing Mr. Cleveland's independence, is now patting him on the back. Their change of tactics, not of heart, has been occasioned by a late speech Mr. Cleveland made against the administration's ideas as to the control of the Philippines. Consistency on the part of these hollier than thou papers should have induced them to let Mr. Cleveland's ideas on any question pass without endorsing on the grounds nothing good could come from his mind.

It is very amusing to note how it pleases our esteemed contemporaries, the News and the Register, to dwell on The Sun's article relative to the city's death rate and the feeble attempts made by them to try to make the people think we have slandered our fair city "so awfully." Keep it up, gentlemen. We are satisfied with the results. We hope it will benefit the city to call attention to a few facts. It was probably heroic treatment, according to some people's ideas, but it was fruitful. We allow no man to cherish a greater pride for Paducah than we do, and would not give currency to aught slanderous concerning our good city. We stated the facts as given to us by the medical profession and their veracity has not been disproved. Doing this, and accomplishing our aim, we were satisfied. Our neighbors can play on the strings at their pleasure—if the music is to their fancy.

NO POLITICS IN THE SUN'S FIGHT FOR BETTER SANITATION.

Our vacillating contemporary, the News, after copying a sarcastic paragraph from an isolated country weekly in regard to Paducah's unsanitary condition. keeps up its record for unreliability by false generalities. It assures its country friend that The Sun has misrepresented the mortality rate and says it is a case of politics in which The Sun is trying to cast reflection upon a city Democratic administration.

It is well known that the agitation was started by the medical fraternity, the majority of whom are Democrats and had no thought of casting any reflection on any one. The Sun joined in the fight because it recognized that when the doctors become alarmed as regards the life and health of the citizens it was time for all sensible people to take alarm and lend them assistance.

The Sun will continue to aid the doctors, and the Commercial club who

If you will buy three
Old Virginia Cheroots
and smoke them to-day you will get the greatest amount of comfort and satisfaction that 5 cents will buy in a smoke, and get it three times over! You haven't any idea how good they are and cannot have until you try them. Try three to-day instead of a 5c. cigar.

Three hundred million Old Virginia Cheroots smoked this year. Ask your own dealer. Price, 3 for 5 cents.

have joined the crusade, until some relief is obtained. If to attain this end the truth must be told. The Sun will tell it, any bad effect that may arise, temporarily, by reason of an effort to save the lives and protect the health of the citizens of Paducah must be endured until the fault is corrected.

Paducah is naturally a very healthy city, and there is no occasion for it to be otherwise, except through neglect and carelessness. This, from what the best and most influential doctors of the city say, does exist, and they are the best authority obtainable. Carelessness is evident from the fact that no meeting of the board of health was held for eighteen months. Paducah can be made one of the healthiest cities in this section of the country. It is this end that The Sun has in view.

There is no politics in this matter, as much as our flopping friend would try and impress his Democracy upon a suspicious public, if there was there is no telling where the News would be. The only motive that impels The Sun to publish the facts may temporarily effect the interest of the city is the more imperative obligation it owes its neighbors and friends who are now here and whose very existence is jeopardized. It knows no politics when dealing with such matters; it would not trifle with such matters; for the sake of politics, but when it comes to politics it has always maintained a straightforward and manly course and its enemies as well as its friends know where to place it. The report of the committee of the medical fraternity that was published should be sufficient to interest any man in the subject. The doctors are unselfish in their motives and their acts are in the interest of the health and lives of their friends, their neighbors as well as their own families; these motives will cause every sensible man to consider that this question is a serious one and one that cannot be smothered for the mere temporary relief from publicity.

No real and irreparable damage has been done, no serious damage has resulted. The impending damage can be avoided and publicity is the surest and most certain way of stopping the impending calamities. After an epidemic has broken out and many of our best beloved ones have suffered death from this neglect, all the resolutions and committees can do no good. It is the present agitation that is going to save them, and it is the present publication of existing conditions that will be the greatest benefit to Paducah that has ever occurred, notwithstanding a country weekly of three hundred circulation has proclaimed to the world the fact that Paducah is unsanitary and the flopping, antiquated sheet is about to go into spasms to prove its ever changeable love for Democracy.

HERBINE should be used to enrich and purify the blood; it cures all forms of blood disorders, is especially useful in fevers, skin eruptions, boils, pimples, blackheads, scrofula, salt rheum and every form of blood impurity; it is a safe and effectual cure. Price 50 cents.

THE KIND OF WIFE I Should Choose For My Son.....

(By Courtesy of "The Christian Herald," New York.)

THE WIFE DESCRIBED IN THE BOOK OF PROVERBS.
(By Rev. Joseph Parker, D. D.)
The subject of this article is capable of being stated from a totally different point of view, that is, for example, What daughter-in-law would I choose for myself? So limited is the mind of man, and so selfish is he even in his most exalted moments, that he cannot but treat every subject with special regard of his own emotions, preferences and interests. I have not only to choose a wife for my son, I have to choose another member of my own family, a consideration which cannot but affect my reasoning upon so delicate a topic. If my son were to be married tomorrow, and depart for the uttermost parts of the earth on the day following, I might not feel the pressure of the matter so sensitively; but when I reflect that my son and his wife are going to live within five minutes' walk of my own house, and they will probably come at least twice a week for their supper at my table, it is impossible for me to bring my susceptibilities within the control of a stern or even Spartan discipline.

First of all, my son's wife must have a roomy and well furnished head. For I like sense; downright solid human sense. I like, too, sense that is softened and varied by well-controlled and well-directed humor; not only the sense that can see a joke after it has been elaborately explained, but the broader, rarer sense, which can see the humorous aspect even of some serious things. It is pitiful to see how very seriously some people take their daily life.

Life is serious enough in all conscience, therefore, do not let us fill it with a deeper sadness, so tragical as to be utterly without relief, and without openings into wider and healthier spaces. My daughter-in-law, therefore, must have sense relieved and softened by gracious humor; the humor that may make her keenly alive to the defects of other families, but obligingly blind to the infirmities of

above the renown of her circle, every one says concerning her, "Many daughters have done virtuously, but thou without doubt excellest them all."

I have thus made a clean breast of the purposes which animate me in the choice of a daughter-in-law. My readers now know exactly my policy in reference to my son's welfare. He will never be half a man until he is mated with this sweet and holy woman of the Book of Proverbs. I speak with the greatest emphasis; I declare with the whole passion of my heart, that this is precisely the kind of wife which I should at once choose for my son—if I had one.

A QUEEN OF SILENCE AND QUEEN OF SPEECH.

(By Bishop John H. Vincent.)
If I had a son who needed a wife, and my words had power to place in his hand in holy covenant the hand of a woman answering to my ideal, these are the words I should write:

A woman of intelligence, that he, at his wisest and best, might respect her; gaining in culture and power with the passing years, that he might not outgrow her; independent, that she might maintain her rights; self-controlled, that she might not be easily overruled; vivacious, that she might continue to interest and inspire him; gracious and agreeable in social manners, that she might help make his home attractive to people of taste and refinement; having a specialty in art or literature, that she might continually augment her resources; expert as a cook and enterer, that she might be able to direct her kitchen; genuinely sympathetic, that towards "servant girls" she might stand in the attitude of a friend, accounting them as home helpers and not slaves, and therefore with a delicate sense of fitness objecting to the term "servants," unless she applies the same term to her minister, merchants, doctor and banker; honoring true and pure womanhood in every sphere of life where it seeks self-respect and cultivates great social aspiration.

A woman interested in all questions of social reform, that she might contribute directly and indirectly, by example and effort, to the development of society.

A woman fond of children, that she might be glad and proud to be a mother; with industry, tact and ingenuity, that she might both entertain and instruct her children. A woman fond of reading aloud, that she might enrich the early years, and thus all the year, of her children's lives with a taste for and a knowledge of the best literature; keen to detect native defects in her children, that she might be wise in devisings and equally wise in a permanent silence concerning them.

A woman steady in the observance of religious duties, that her teaching might never become perfunctory, and that all her well-chosen and carefully uttered words about religion might always have in them the force and fervor of profound conviction and of personal experience.

A business woman, that she might sympathize with her husband's responsibilities, and appreciate his obligations; economical and prudent; training her children to know the value of a penny in the service that earns it, the self denial that saves it, and the wisdom that divides it in useful expenditure, and philanthropic bestowment, training alike to discrimination, prudence and generosity.

A woman devoted to the church, reverencing and making delightful, in a different way from other days, the Holy Sabbath, recognizing the preeminence of the Holy Bible over all other books, and building up into our civilization as far as her home can do it, the noble Christian elements which are the glory of the age, and the government in which we live.

A woman free from affectations of every sort, scorning to appear what she is not, accounting bluntness as rudeness, and yet preferring bluntness to pretence.

A woman who is a Queen of Silence and a Queen of Speech; holding the golden scepter which lifted on the blessing of the second; loving her home better than all other places on earth, making it a forerunner of the Home earth, and sharing with other earthly homes the qualities of grace and peace which makes her own so delightful.

A woman beautiful with the personal charms which reality in character bestows; charms which make irregular features and a plain face attractive, and which thought, love and unselfish devotion make radiant. Such is my ideal of a wife I should seek for my son, if my son were not already thoroughly satisfied, as is his father.

INSTRUCTIONS TO CONGRESS FOR GUIDANCE IN SETTLEMENT OF CHINESE QUESTION.

Washington Jan. 18.—Consideration is being given by the president and Secretary Hay to the instructions to be cabled to Minister Conger for his guidance in the negotiations for a permanent settlement of the Chinese question. As practically determined upon, the programme to be followed in the negotiations contemplate—first, the immediate carrying out by the Chinese government of the demands which require no further discussion; the determination of the extent of and method of punishment of the responsible authors of the Chinese outrages; the amount and method of payment of the indemnity; and, finally, the revision of treaties with China. The discussion relative to punishment will relate to the ability of China to impose harsher punishments than she will probably propose and the designation of a committee of allies to be present when the punishment is inflicted.

This government is still in favor of the foreign ministers agreeing upon the amount of indemnity China will pay, after which the foreign ministers will distribute it among the allies, failing which, the distribution is to be made by The Hague. It has not yet been determined whether the treaties shall be revised by each nation separately or by the nations jointly, as this matter will have to be settled by direct negotiation between the powers.

VENEZUELA WAR CLOUD

IS GROWING AND CASTRO MAY BRING A SQUADRON DOWN UPON HIM.

Washington, Jan. 18.—Venezuela, has been given to understand that the United States will exert its whole power, if necessary, to provide protection to American interests within its territory.

Representation to this effect has been made by Minister Loomis in accordance with instructions sent to him as a result of the disquieting news received indicating that an attempt would be made to dispossess the New York and Bermuda company of its asphalt property without due process of law.

It is believed in naval circles that the gunboat Scorpion has left Lagunera, and is on her way to Guanao, a part on the San Juan branch of the Orinoco river, about fifteen miles from the asphalt lakes which are in dispute. Lieutenant-Commander Nathan Sargent, commanding, will if necessary land marines, but he will avoid bloodshed if possible.

Upon a call for reinforcements, the Hartford will be directed to return to Venezuelan waters; the Lancaster is available and the battleships Kearsarge and Massachusetts are at Pensacola.

Venezuela is not menaced alone by the United States, however. Great Britain is interested in the seizure of the two steamers of the Orinoco shipping and trading company, which have British registers. In addition the country is in a state of ferment, brought about by the activity of followers of former President Andrade, whom Castro, the present president, overthrew.

Many a bright and happy household has been thrown into sadness and sorrow because of the death of a loved one from a neglected cold. BALLARD'S HOREHOUND SYRUP is the great cure for coughs, colds and all pulmonary ailments. Price 25 and 50 cents.

The Week in Society.

The Doings of the Smart Set the Past Six Days. Pleasant Events and Personal Mention.

Society gave the chronicle enough work to do the past week to keep him suffering of lack of news.

The entertainments were numerous and pleasant and all well attended. The charity ball was the event of the week and was a very enjoyable affair.

There are a number of pleasant functions booked for next week and it gives promise of proving an entertaining one.

SOCIAL CHAT.
THE CHARITY CLUB.
Pleasant indeed was the Charity ball at the Palmer Wednesday evening for which that popular organization the Monday Afternoon club was sponsor. It was splendidly attended, well managed, and a delightful affair. The net proceeds made up a snug purse, \$156.00.

This delightful club was organized in the fall with the purpose of doing charity work this winter and it has proven its true worth by the deeds of good work it has done. Christmas many a poor unfortunate was made glad by the attention paid to his needs by these charming young ladies and all winter they have been alert, attending the wants of a score of poor families.

In these days of "commercialism," when man seems to have time for naught but the prosecution of his search and rush for wealth, it is indeed pleasing to note that some one has thought for the less fortunate of the human family; the wish, the desire, to do something to ameliorate the sufferings to which we cannot shut our eyes. And who can do it better than the young women? God gave them hearts full of tenderness and love just for these deeds and let no one seek, in any way, to bar their

HAVE YOU ANY OF THESE

SYMPTOMS OF A VERY COMMON TROUBLE.

There is no disease so common in the United States as catarrh because it appears in so many forms and attacks so many different organs.

It is a common mistake to suppose that catarrh is confined to the nose and throat. Any inflammation of the mucous membrane wherever located is catarrh. Catarrh of stomach or bladder, or intestines is nearly as common as nasal catarrh and much more serious although it is true that stomach catarrh and catarrh of other internal organs is the result of neglected nasal catarrh.

A new remedy has recently appeared which so far as tested seems to be remarkably effective in promptly curing catarrh, wherever located. The preparation is sold by druggists generally under name of Stuart's Catarrh Tablets, and in addition to being very palatable and convenient, possesses extraordinary merit, in many cases giving immediate relief from the coughing, hawking and constant clearing of the throat and head, these symptoms with which everyone is familiar who has ever suffered from colds in the head and throat.

Catarrh is simply a continuation of these symptoms until the trouble becomes chronic and grows gradually worse from year to year.

Stuart's Catarrh Tablets are composed of Hydrastin, Eucalyptol, Gualcol and similar antiseptics and catarrh specifics, from which it will be seen that no secret is made of the ingredients and also that no mineral poisons are used, as is the case with many well known catarrh medicines.

For catarrh of the nose, throat, bronchial tubes, for catarrh of the stomach, intestines or bladder no preparation is so safe and gives such rapid and permanent results as Stuart's Catarrh Tablets.

All druggists sell them at 50c for full sized package. You can use them with assurance that you will not contract the cocaine or morphine habit as the results from this catarrh cure are apparent from the first day's use.

Many of the blotches, pimples and other affections of the skin are caused by the failure of the liver and kidneys to cast off impurities, which remain in the system. HERBINE will stimulate the liver and kidneys, and cleanse the system of all impurities. Price 50 cents.

Observation taken at 7 a. m. River 22.9 feet on the gauge, a rise of 1.4 in last 24 hours. Wind, northeast, a light breeze. Weather, clear and colder. Temperature 32. Pell, Observer.

The Woolfolk arrived this morning from Trade Water mines with six barges of coal.

The United States steamer Lookout has laid up here. Capt. Louis Pell, in command, and Ed Pell will spend a pleasant visit here among relatives and friends.

The marine ways hauled out a large model barge this morning for repairs.

Mr. Ed Moragn, the popular steward of the Tennessee, is getting his department in handsome shape, and the boat leaves next week. She will be in as good order as when she first came out.

The little hunting party that went up the river a few miles yesterday afternoon killed five wild geese and fifteen Mallard ducks.

The City of Paducah is receiving a big trip for Tennessee river. She leaves at 5 p. m. today.

The H. W. Buttrick left Nashville today at noon for this port and is due tomorrow night.

The New South, from Memphis, passed up for Cincinnati last night with a big trip.

The river business done at Paducah is surprisingly large and a powerful advantage to her commercial interests. If deprived of it the importance would be significant and she would hardly class as a third rate city.

The river is still rising here at a pretty good gait, the last 24 hours being greater than the 24 hours previous. It marked on the gauge at 8 a. m. today, 22.9, a rise of one foot and four-tenths. Business was above the standard today in river circles, all the packets handling big business, also big stir among towboat men.

The City of Paducah has laid up at Cincinnati for repairs, which will take about two weeks. The Hudson has been chartered to fill her place. She will report here tomorrow for Memphis.

The City of Golconda departed for Caseyville at 10 o'clock this morning with a good trip.

The Victor, Capt. Dan Finney in command, is due out of Tennessee river tomorrow with a big tow of ties.

The L. H. Burnham, out of Tennessee river, is due today for Cincinnati with a large tow of staves.

The Dick Fowler went galloping down the track this morning for Cairo at 8.30. She left the post with a good "heavy weight."

The J. B. Finley, the finest and one of the most powerful towboats ever built, left Louisville yesterday with an immense tow of coal for the southern markets.

The Hudson instead of the City of Paducah will report here tomorrow for Memphis. Evidently the White Collar line withhold all of their best service for the upper trade, but from

Cincinnati to Memphis is where they made their first big "stake." A fine, fast line of side wheelers in the Cincinnati and Memphis trade is very probable, to be entered by a new company.

The John S. Hopkins, from Evansville, arrived and departed on return trip this morning with good business in and out.

All told 11,500,000 bushels of coal was floated out of the Pittsburgh harbor on the present rise.

The Pittsburg coal combine made \$495,000 in clean, clear cash the first year of their existence. It's no trouble for any kind of a combine to make whatever they may see proper to demand.

COMMITTEES MEET.
THEY WILL ASK THE COUNCIL FOR AN INCREASE IN HEALTH OFFICERS' SALARY.

Drs. Reddick, Brooks and Sights, of the Paducah Medical and Surgical society, and Messrs. Chas. Weille, Ed Farley and John Rock, of the Commercial club, met in Dr. Sights' office last night and discussed sanitation.

It was decided to recommend to the council that the council increase the health officers' salary from \$100 to \$300 a year so a competent man can be secured to attend to the duties. The council will also be asked to appoint a committee to confer with the other two committees and co-operate in the work of securing better sanitation.

GOOSE HUNT.
THE PADUCAH NIMRODS DID NOT FIND MUCH SPORT.

The gentlemen who went up the river on the Brookhill goose hunting yesterday afternoon did not meet with much luck. They were Dr. P. H. Stewart, Messrs. Ben Weille, Elmore Stogard, J. Wheeler Campbell and Haskell Hughes. One goose was killed.

The most stirring incident of the trip was Mr. Hughes' tumble into the icy waters of "Goose Pond." He was rescued with nothing more serious than a ducking.

DIED OF OLD AGE.
Mrs. Emily Hall, wife of Mr. D. H. Hall, engineer at the Ferguson-Palmer mill, died last night from old age and the gripe, aged 76, at her home, 415 Norton street. The funeral will take place tomorrow afternoon at Oak Grove. Her grandson, Ben Devers, of Smithland, is expected to attend.
